Dear Patient,

**You can save precious time when you are in labor by completing the pre-registration paperwork for the hospital. We recommend that you pre-register a few months in advance of your expected due date. If you are unable to complete the pre-registration forms ahead of time, you and your support person will need to allow extra time to complete the registration process when you arrive at the hospital. Be sure to bring your insurance cards with you to the hospital.**

**Please note that most insurance plans require pre-authorization for your admission for the delivery of your baby. Check with your employer's benefits office or insurance company customer service representative to make sure that you have met their notification requirements.**
